5th July, 1957.

AD1, B, M, W, H - Copy to each. Copy to: Director DSB.

INFUSE.

You should know what I said to Director DSB after yesterday's meeting on Infuse.

- 2. In respect of any contracts placed in the UK for attachments to Infuse, GCHQ will give all reasonable help in placing and progressing them.
- 3. It is our policy to complete, de-louse, programme and run Colorob, and to give DSB the benefit of our work all along the line.
- 4. Any change in that policy will be decided by me. If there is a case for a change, due weight will be carefully given to the Infuse interests of DSB.
- 5. Should I make a change before there has been a thorough de-lousing of Colorob, I shall be prepared if necessary to send an expert to DSB, at UK expense, with the mission to establish Infuse as a going concern.
- 6. Director DSB expressed himself as understanding of GCHQ's position in the light of recent developments, satisfied with my assurances, and determined for his part to do all reasonably possible to accelerate the day when DSB would be able to tell us that we need no longer give any weight to Infuse in our Colorob deliberations.

Director
